OFR is a certified Woman Owned Small Business

rethink

RETHINK WHERE YOUR OLD OFFICE FURNITURE GOES; WE DO.

Since 1991, Office Furniture Resources, the Midwest's Largest Office Furniture Liquidator, has been diverting unwanted, outdated or unusable office furniture from the landfill. OFR decommissions for Fortune 500 companies in the Midwest and across the country, reselling and recycling more than 5,000 truck loads of furniture, carpet and e-waste each year. Through our nationwide network of furniture resellers, our own retail resale stores, and donation partners, we have achieved an average annual Landfill Diversion Rate of 79%. That's great. But can we do even better? Yes, now we can.

INTRODUCING OFR'S SIGNATURE 99% LANDFILL DIVERSION SERVICE.

By partnering with expert recyclers, waste to energy facilities and our network of charities, OFR's ReThink service assures that up to **99%** of your unwanted furniture assets are repurposed, reused, recycled or donated. Our ReThink program includes detailed reporting so that your stakeholders know the project was completed in a responsible, sustainable manner

IT'S THE RIGHT THING TO DO, OFR IS THE RIGHT TEAM TO DO IT.
